

E<sup>2</sup>

## DESCRIPTION

GPS E<sup>2</sup> represents the next generation of sports energy drinks. The low-calorie, low-carbohydrate formula is designed for quick release and sustained energy to boost exercise and competition intensity, increase endurance, and heighten physical performance.\*

Packed with vitamins, minerals, amino acids, glyconutrients, and neuroactive factors, GPS E<sup>2</sup> delivers a nutritive lift to the entire system providing the energy, mental focus, and nutrients needed to take your training to new heights.\*

## RECOMMENDED USE

Add one level scoop of GPS E<sup>2</sup> drink mix to 8 fl oz of water, shake or stir thoroughly, and drink immediately. May be used up to three times per day. For maximum benefits, GPS E<sup>2</sup> should be consumed on an empty stomach.

## KEY BENEFITS

- Provides steady energy support throughout training and exercise\*
- Heightens physical performance by providing a nutritive lift\*
- Elevates senses\*
- Increases metabolism\*
- Quick release and sustained energy formula

Available in Cherry Blast and Citrus Blast

Note: GPS E<sup>2</sup> contains 110 mg of caffeine per serving, less than the amount found in the typical cup of brewed coffee.

*"I drink E<sup>2</sup> every morning. Not only does it help me shake the "morning fuzz," it makes me feel great all day."*
