FREE EMAIL CLIENT

Mozilla Thunderbird

Mozilla Thunderbird

- Mozilla Thunderbird offers a pretty and streamlined interface to a very powerful email package. Not only is Mozilla Thunderbird a secure email client; not only does sophisticated spam filter knock out most junk mail (and certain emails applying scam tactics as well); Mozilla Thunderbird also helps you organize and find the good mail.
- That built-in chat (with support for Google Talk, Facebook Chat, XMPP, IRC, and Twitter) is versatile and lets you exchange instant messages with contacts and group chats in channels easily. Transcripts are saved automatically and show up handily in Mozilla Thunderbird search.
